Level 4 Diploma in Cyber Security

The OTHM Level 4 Diploma in Cyber Security aims to equip learners with a strong foundation in both theoretical knowledge and practical skills, enabling them to understand and address the diverse cyber security risks faced by individuals and organisations today. The programme covers core concepts in computer science and mathematics, fostering learners' ability to explain and reason about key security topics with confidence. Upon completion, learners will have developed a broad understanding of information technology, computer architecture, networks, and operating systems. They will also gain valuable hands-on experience in developing essential digital solutions, including databases and deep neural networks.

ENTRY REQUIREMENTS

These qualifications are designed for learners who are typically aged 18 and above.
The entry profile for learners is likely to include at least one of the following:
  Relevant Level 3 Diploma or equivalent qualification
  GCE Advanced level in 2 subjects or equivalent qualification
  Mature learners (over 21) with relevant management experience
English requirements: If a learner is not from a majority English-speaking country, they must provide evidence of English language competency.
